

HOTEL RESTAURANT SPA

## Becky & Mark 6<sup>th</sup> December 2015

We had our wedding at Fredrick's Hotel in December. We had an absolutely fantastic day. Everything went perfectly which was mostly due to the Events Manager Alix. In the months before the wedding Alix was so helpful and very adaptable to our requirements. On the day of the wedding she made sure the room was set up just right and that everyone was in the right place at the right time so I didn't have to worry about anything and could spend the morning relaxing! Alix does a fantastic job and made everything so easy for us.

I stayed the night before the wedding and ate dinner at the hotel, the food was delicious. The double room was traditionally furnished, it was lovely and very clean with a view of the garden.

On the day of the wedding Alix organised everything and the room was decorated so nicely, the hotel staff were really diligent and helpful and the food was great! Lots of guests commented on just how good the food was. Throughout the whole day we felt that the staff did everything to make our day go seamlessly. On the night of the wedding we stayed in the Berkshire Suite which was huge, really nicely furnished and was very clean. I wish we could have stayed longer. We had breakfast the next day which was delicious.

I would recommend Fredrick's to anyone wanting to find an intimate, friendly venue to get married. I would also recommend it as a place to stay if visiting Maidenhead. Thank you to everyone at Fredrick's for making our day perfect and a day we'll remember.
