

# FREDRICK'S

HOTEL RESTAURANT SPA

**Sarah & Hugh**

**28<sup>th</sup> June 2015**

We had a wonderful wedding at Fredrick's. From the first moment we walked in the place felt right. Unlike many other venues we considered we felt from the very start that the staff genuinely wanted to assist us in having a special wedding day- not wanting to fleece us for every penny. The exclusive use option we chose allowed us to really make the place feel like our own and the staff treated us like we were almost permanent residents. We were only free at weekends for meetings with the wedding planner so attended several open days where we were always made to feel welcome and Alix would always find time even though these must have been her busiest days by miles. Alix was a wonderful help in achieving what we wanted from our wedding. We were never made to feel like anything was impossible or unreasonable from her perspective. She would always go the extra mile to try and make it work etc etc. The food was absolutely spectacular. Our guests were commenting on it for weeks afterwards. Callum the chef was also really nice and attentive to us- again like Alix going the extra mile to make us feel special. We stayed in the Sandringham suite after an open day. Extremely comfortable and very nice to have the veranda area to relax in. We stayed in the Berkshire suite for the wedding itself which was sublime. We stayed an extra night afterwards which was extremely relaxing. We had spa treatments and dinner to wind down after the hectic build up to the big day. To crown everything off it is only 20-30 mins drive from Heathrow so you're on your honeymoon before you know it. I could recommend it any more highly.
