

# FREDRICK'S

HOTEL RESTAURANT SPA

Jing & Sheng  
10<sup>th</sup> August 2013

We were choosing between a country house, manor house and the Fredrick hotel. We went for the hotel because it basically provides all the criteria we required: a Gazebo wedding, privacy, accommodation and friendly staffs (if you are at the stage of choosing your wedding venue, these would definitely be the main areas you wish to consider). We had a lovely wedding, with the help from friends, suppliers and hotel staffs, everything has been laid out exactly what I wanted. Everyone (including our parents) said we have made the right decision and it was a beautiful venue located in an amazing area. My bridesmaids even did a sight-seeing on the next day after they tried the spa facilities. Thanks to all the staffs who helped before, during and even after the big day. I have to say I could not have a better wedding. There are so many things I could compliment, food, service, facilities. But of course you will have to see it yourself, our wedding coordinator Alix has been extremely helpful, remember to talk to her if you are considering to have you big day here, she will provide you all the information.
