

HOTEL RESTAURANT SPA

Kate & Rudy
27th May 2016

We had a wonderful wedding at Fredrick's and I would like to say that there are 3 people who need a special mention straightaway. Alix for being so helpful, kind and reassuring in the run-up to our wedding. We live in France and so we weren't able to make many trips over (in fact we only went twice before the wedding) but she helped us by taking photos and explaining the layout and all in all she is absolutely fantastic and will help you make your day very special.

The second person who deserves a sterling review is Charlie, the chef. Honestly I am surprised he is not the head chef in a top London restaurant. He is absolutely amazing and was so amazing in letting my French husband decide the menu with him and all the French guests LOVED all the food. Thank-you Charlie as the food was such an important part for Rudy and you took all the worry and stress away with your delicious food.

The third person I think needs a special mention is Andrew, the toastmaster. He was a legend!!! He was so friendly and charming and just added a certain something to that day that would have been sorely lacking without him. He went above and beyond and he helped us when a couple of things needed to be re-organised. He is the loveliest man and made such a difference to the day.

It was an amazing day!
