We had an amazing wedding day at Fredrick's, and I have to say that I think it was mainly due to the staff!

Charlie the Chef is absolutely wonderful, he was so flexible and professional. The food was delicious, the kitchen team must have worked so hard to deliver 82 meals all at the same time and all piping hot! Our guests commented on the food and said that it was delicious.

The waiting staff and bar staff were flawless, happy and smiling and very discreet we hardly knew they were there. Ben was lovely and very helpful throughout the day before when we came to set up and on the wedding day itself – lovely guy.

As for the wedding service, this hotel has the most amazing Wedding Coordinator ever! Alix Matania - She is such a wonderful lady and I am so sad that I don't have any more annoying bridezilla emails to send her! Alix is so patient and understanding and completely understood my theme for my wedding. Alix was kind to both of our parents and whenever we visited to discuss plans she was always welcoming and engaged with us fully. What sets Alix apart from the rest is that she really cares, from responding to emails quickly, to giving us great wedding advice – she knows this industry inside out and I am so pleased that we had her to guide us through our wedding planning. Thank you so much Alix.
